LESSON 5:

Called to Responsibility

Vocabulary

- **Responsibility:** knowing your role, owning it, and doing it at the right time
- **Accountability:** willingness to take ownership of your actions and responsibilities, and allowing others to help you stay true to what you have committed to do

Scripture Study

> If you are faithful in little things, you will be faithful in large ones. But if you are dishonest in little things, you won't be honest with greater responsibilities. **Luke 16:10**

Question 1: What does this verse teach us about the connection between being faithful in small responsibilities and being trusted with bigger ones?

Question 2: In your project right now, what is one "small" responsibility God has entrusted to you, and how can you show faithfulness in it as you execute your project?

> So, my dear brothers and sisters, be strong and immovable. Always work enthusiastically for the Lord, for you know that nothing you do for the Lord is ever useless.
> **1 Corinthians 15:58**

Question 3: Why should we work with enthusiasm, even if our responsibilities feel meaningless?

Question 4: What would it look like to be strong and immovable in the responsibilities that have been entrusted to you?

Project Milestone

Set project milestones. By the end of the lesson, I will have worked with my group to set 3-5 project milestones with corresponding due dates.

Assign tasks. By the end of the lesson, I will have worked with my group to assign tasks needed to complete our project.

Set deadlines. By the end of the lesson, I will have worked with my group to set deadlines for the tasks associated with our project.

Instructions

Create a simple plan for your project, including a timeline, task assignments, and a resource checklist. Think realistically about what you can do, who is best suited for each role, and what resources you would need.

Timelines with Key Milestones – Break the project into 3-5 main milestones with approximate due dates.

See Figure 5 in the back of the book to view a completed sample.

No.	Milestone	Due Date	Description

Task Assignments – List specific tasks needed for your project, outline needed resources, and assign responsibility.

No.	Task	Resources	Assigned To (Name and Role)
